***Allowable Subject Matter***

Applicant has amended the claims to stipulate that the claimed composition contain a mud building agent, which may be a specific class of clay according to claim 9 but barite and bentonite are among other alternatives typically employed as this type of additive.

Though mud building agents are a usual component of well drilling fluids, the *Qu* disclosure is directed to fracturing fluids and it is unclear as to why one of ordinary skill would be motivated to add the type of materials ordinarily associated with mud building agents to a fracturing fluid. Accordingly, the rejections over *Qu* are hereby withdrawn.

An updated survey of the prior art did not yield a reference more germane than those already of record though Peiffer et al., U.S. Patent # 4,627,926 and Miller et al., U.S. Patent # 6,605,570 are cited as being of general interest. Insofar as these and the prior art cited during this prosecution fail to even render obvious the instant invention, claims 1, 3, 6-9, and 11-18 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc S. Zimmer whose telephone number is 571-272-1096. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
